Education

Govt. Science Collage	**July2016–August2019**
Bachelor of Science[Mathematices]	*Gwalior, MadhyaPradesh*

Experience

Amosta Solutaion Pvt. Lmt.	**May2023–Present**
Frontend Develvoper	*Gurgaon,Haryana*

- As a Frontend Developer at Amosta Solutions Pvt Ltd in Gurugram, Haryana, I was involved in the end-to-end requirements identification, design, and implementation of features. I was also responsible for contributing individually to design documentation and ensuring the overall code quality of user stories and deliverables. The technologies I used included React JS, Material UI, JavaScript, and AWS.

Projects

Humhai [app]	**Dec-2023-Current**

"HumHai" is a mobile app that features two distinct modules: Candidate Management and Events Ticket Management.
Candidate Management Module

- Candidate Profiles: Create and store detailed profiles for each candidate, including their contact information, resume, and other relevant details.
- Application Tracking: Monitor the progress of each candidate in the hiring pipeline, from application submission to final decision.

Events Ticket Management Module

- Event Creation: Enable organizers to create and set up events, providing details such as date, time, venue, and any additional information.
- Ticket Generation: Generate and manage tickets for attendees, possibly including QR codes or barcodes for easy check-in.

Technologies Used:

- Frontend: React Native
- Backend: Python Django (deployed on Play Store)

Humhai [web] - link:- https://hrtest.humhai.in/	**May-2023-Current**

- Designed and created background verification system in humhai.in
- Designed and created hr management system in humhai.in
